

## 1.0 Introduction

Kansas State University (KSU) participates in the US Bank Visa Purchasing Card Program. Administered by the General Accounting department in the Division of Financial Services (DFS), the university card program is designed to establish an efficient, cost-effective method to pay for KSU commodities, services and/or travel related expenses. The card program provides enhanced control for all transactions, validating the transactions against pre-set authorization criteria established by the university, including but not limited to the following:

- Single purchase limit
- Monthly credit limit
- Approved Merchant Category Codes (MCCs)

The US Bank Visa Purchasing Card Program is the only approved credit card program for the University. Departments do not have the authority to open merchant accounts or other lines of credit without prior approval from the Division of Financial Services.

University purchasing policies and guidelines regarding spending and payment of state and grant funds apply to the card program. It is expected that all cardholders and department heads become familiar with these policies, as well as the procedural expectations and requirements for cardholder use and department administration of the University credit card detailed within this manual. Cardholders who agree to the Cardholder Agreement within the application process and department heads who approve card applications are acknowledging understanding of and agreement to adhere to these policies and procedures; and all card transactions are subject to internal and external audits to assess compliance with said policies and procedures. Use of the card for purchases not in accordance with procedural guidelines may result in personal liability and/or cancellation of the card.

The card program is authorized for university business only.

## 2.0 Card Ownership & Responsibilities

Each card is the property of Kansas State University. Goods and services purchased on the card are for university use only.

Cards are issued to specific individuals within a specific department to ensure accountability of the use of the card. Both the department and the cardholder have responsibilities for the card.

### 3.0 Card Application

University employees may apply for a university credit card through the [Expense Management card request process](#). A card request must be completed for each new card issued and requires the card applicant's agreement to the Cardholder Agreement (see Appendix B). The card applicant should be the person whose name will appear on the card; the exception is vehicle card applications (see [Vehicle Card Applications](#)). See table 3.0.

**Table 3.0 Card Application Process**

### 3.1 Vehicle Card Applications

Applications for vehicle cards managed by a department should be submitted by the person the department has permanently assigned to the agency-owned vehicle and who is responsible for the card. If this person changes and the card is still active, a request must be submitted for a name change, identifying the new person responsible for the card. This person must be the one to submit the name change request and agree to the Cardholder Agreement.

### 3.2 Training

Each card applicant must complete the required training associated with the card as a prerequisite to receiving the card. The training is provided online through Canvas. Card applicants will receive a link to the training following the approval of their card request.

## 4.0 Card Details

To accommodate the different purchase needs of card users, seven card options are available. Monthly credit limits defined below are the standard limits for each card type. Non-standard limits, of a value either greater or less than the standard limit, may be requested.

**Table 4.0 Card Type Descriptions**

the end of the trip/event. All purchase limitations of standard travel card apply; see Table 5.0.1 for more details.

Transactions are processed and reconciled in the same manner as standard cards.

## 5.0 Card Purchases

Card purchases are defined by card type as outlined in Table 4.0. Generally, university credit cards may be used to pay for business expenditures

- allowable under the university purchasing policy
- in alignment with cardholders' spend profiles (MCC groups, monthly credit limit, and single transaction limits)
- where Visa is an accepted form of payment.

Table 5.0.1 outlines allowable travel expenses, and Table 5.0.2 provides guidance on types of purchases that are not allowed. Cardholders are expected to comply with these guidelines and should contact [bpc@ksu.edu](mailto:bpc@ksu.edu) with questions in cases where the allowance of a purchase is uncertain. All purchases \$10,000 and above require an approved contract through KSU Purchasing prior to payment. Improper use of the card may result in a reduction in cardholder monthly cycle limits or suspension of the card.

**Table 5.0.1 Travel Expenses**

EXPENSE	PERMITTED	NOTES
Business Expenses		Examples of allowable expenses include but are not limited to lodging; conference registration; airfare; fees for car rentals, shuttles, taxis, and parking. <b>Note:</b> State funds cannot be used to pay for transportation to/from restaurants when no business is being conducted.
Personal Expenses		Travelers are responsible for personal expenditures and shall not use the travel card for these transactions. Personal non-reimbursable purchases include (but are not limited to) room service, movies, dry cleaning, laundry, etc.
Meals		Personal meals may not be charged to the travel card. Travelers receive a Meal and Incidental Expenditure Travel Allowance that is reimbursed upon their return through the expense management process.
Car Rental Insurance		Car rental insurance is provided by the university on university credit cards. Travelers should decline additional insurance offered through the car rental agency.
Lodging Fees		For booking, only room <b>deposits</b> can be <b>prepaid</b> with the travel card; the full stay may be charged to the card solely upon checkout.

**Registration Fees**

Registration fees may be paid by someone other than the individual(s) attending the event. In such cases, the expense report should include the following details in the Comments field:

1. the name of the individual(s) attending
2. the date(s) and place of the event
3. the travel request number if applicable
4. the total number of meals provided in the registration fee (1B; 3L; 2D is acceptable). If no meals were included, the note "No meals included in registration fee" must be added.

If it is not possible to make payment to a vendor directly with the credit card, payment to vendors may be made through <i>department</i> PayPal accounts, paid through Visa.

## 5.2 Expense Reports

Expense reports are required for all university expenses. Reports are created using the Expense Management system and are due for credit card purchases per the applicable expense category as noted below:

**Table 5.2.1 Expense Report Submission**

EXPENSE CATEGORY	SUBMISSION
Purchasing Card (Non-Travel)	Monthly, by the 15 <sup>th</sup> of the month following the month of expenses ( <i>e.g.</i> , expenses from January 1-31 due by February 15)
Travel Card (on Travel Report)	30 days from the end date of travel

## 5.3 Transaction Documentation

Every card transaction requires an itemized receipt document from the vendor to support the transaction. (Exceptions can be made to the receipt requirement in cases of travel-related charges that do not include a receipt. Please reference the [university travel policy](#) for more details.) The transaction documentation must be submitted with the expense report. These documents can be sales slips, cash register receipts, invoices, order forms, receiving documents, and screen prints for online purchases. Bank credit card statements are not considered receipts or invoices. The documentation must include the following data:

- Description of the item(s) purchased
- Quantity purchased
- Unit cost

If a receipt is not originally obtained or is lost, cardholders are responsible for contacting the vendor to secure a copy of the receipt. In the event a receipt cannot be provided, the Missing Receipt Letter must be used in place of the receipt; its use is subject to department approval.

## 5.4 Errors, Disputes, Returns, and Credits

The cardholder is responsible for following up with the vendor or the bank regarding erroneous charges, disputed items, or returns/exchanges as soon as possible. The only acceptable credit method is for the credit amount to be applied back to the card account. Cardholders should not accept cash refunds, store gift cards, or store credit.

**Table 5.3 Reasons for a Disputed Card Charge**

---

- Failure to receive goods
- Defective merchandise
- Overbilling
- Duplicate charges
- Incomplete/inaccurate orders
- Credits due not processed

Documentation explaining each credit received for returns or exchanges should be retained with the monthly billing on which the credit appears. For this reason, cardholders are advised to correspond with the vendor in writing to establish a written trail of communication.

If the cardholder is unable to reach an agreement with the vendor, the cardholder is responsible for reporting the dispute to US Bank, either through their [Access Online](#) dispute process or by calling the 24-Hour Cardmember Service number on the back of the card: 1-800-344-5696. The bank must be notified of any disputed items within 60 days of the last cycle in which the item was purchased.

All disputes resulting from the use of the university card must be charged to the departmental account and the expense type should be listed as Fraudulent/Disputed Charge.

## 6.0 Card Account Changes

Cardholders may occasionally need to modify existing information or restrictions on the account, either temporarily or permanently.

### 6.1 Temporary Changes

Temporary changes to the card account (**except for SET cards**), for any of the reasons noted in the table below, can be made by emailing the Temporary Card Account Change Request Email (see Appendix C) to [bpc@ksu.edu](mailto:bpc@ksu.edu). Card settings will be adjusted for the duration noted in the change request.

**Table 6.1 Reasons to Request a Temporary Change to a Card Account**

| • Multiple transactions to same vendor on one day    |   |

### 6.2 Permanent Changes

Permanent changes to the card account, noted in the table below, require the submission and approval of a card request form.

**Table 6.2 Reasons to Request a Permanent Change to a Card Account**

- |   |  |
|---|--|
| • Permanent increase in credit limit          | • Update to cardholder name                    |

| • Change in card type                         | • Cancellation of card                         |

## 7.0 Card Security

The cardholder and department are responsible for protecting the security of the card in terms of safekeeping and use to protect the card from loss, theft, and fraud.

### 7.1 General Security Practices

For all card types except vehicle cards, only the cardholder is authorized to use the card. (Exceptions to this may apply but require documentation of prior approval from the Division of Financial Services.) The cardholder should keep the card in a safe place to prevent it from being lost or stolen, keep the card number confidential, and not allow any other person to use the card. For vehicle cards, each department must have internal controls to prevent improper use and theft of the automotive card.

### 7.2 Internet Security Practices

The university card may be used to make purchases online. Care should be taken to protect the security of the card by following best internet security practices. See table 7.2.

**Table 7.2 Internet Security Practices**

In such case, the physical card is replaced, but the card number remains the same. Reissuance is not an option for cards that are lost/stolen or compromised by fraud; these cards must be closed. The cardholder may submit a card request to reissue/replace the card.
